

Footwear - Product Development Checklist

Import Requirements

- Review all requirements and manuals on Navegate
 - <https://www.navegate.com/sportsmans>
- All samples must be tagged with the Sportsman's Guide development hangtag

Concept Design

- Sportsman's Guide will provide the initial product concept which will include all technical specifications and desired materials
- Vendor should confirm if these specifications are possible and may be requested to provide a product illustration based on these specifications

Material and Components

- Leather and components should be provided for approval prior to Development Samples unless already specified by Sportsman's Guide
 - Materials include leather swatches, fabric swatches, trims, and lining
 - Components include all hardware, zippers, and laces

Please note: after the pattern, materials, and components are selected, Sportsman's Guide will advise when to proceed with Development Samples

Development Samples - must be received at the Sportsman's Guide within 30 days of requesting a first development sample

- Samples must be based on Sportsman's Guide's specifications
 - Men's sample size: 10.5 Medium
 - Women's sample size: 8 Medium
 - Additional "development samples" may be required until styling and fit is approved. These must be delivered within 20 days of the vendor receiving the revisions from Sportsman's Guide
 -

Please note: after development samples are reviewed, Sportsman's Guide will advise if they will be moving forward with production

Fit Samples - must be received by Sportsman's Guide within 20 days of the vendor receiving development sample approval

- Fit samples can be made with available materials if needed
 - Men's sample size: 9, 11, 13 Medium and Wide when applicable
 - Women's sample size: 6, 9, 11 Medium and wide when applicable
 - Additional "fit samples" may be required until fit is approved. These must be delivered within 20 days of the vendor receiving the revisions.

Confirmation Samples - must be received by Sportsman's Guide within 15 days of the vendor receiving Fit Sample approval

- Samples must be based on Sportsman's Guide's specifications and built with approved materials and confirmed fit.
 - Men's sample size: 10.5 Medium
 - Women's sample size: 8 Medium
